14<sup>th</sup> Sept. 1911

16<sup>th</sup> Sept. 1911

In afternoon Mr Wood & I went to the garden  
Rhododendron - Ward's Hybrid - a tree which had  
got too big for the garden & he said it was a  
good home for it. So we planted it in the site  
of the main plot of the garden. It is  
an original one just kept and has been  
lost in a nucleus of a new Rhododendron - Heath patch

after the rain, which was a dark one. The  
which was a dark one. The day was 9.9.11.

in the garden. It is a good one. It is a good one.

30  
3rd Dec. 1911

11th Dec. 1911

5th Dec. A very cold day (with snow) and a gale from NW wind at 25 to 30 mph. Temperature

after rain & snow at 10 AM. 7th Dec. Cold, dry, & frosty, with a strong & very cold NW wind. 7th Dec.

7th Dec. After a very hard frost (1/2" or more) a fine day in forenoon, with much sun, but a sudden rise of temperature & a drop of the barograph heralded a change to rain & rain, & at 5 P.M. blowing a full gale from S.E.

The rain down in garden & elsewhere followed the rise in temperature forcing the frost on 5th & 6th is remarkable.

Also first of snow in garden & elsewhere. Heavy rain seen on the 1st night, and a full gale from S.E. - Erice - canon well out. Also first of snow in garden & elsewhere (from 1st Dec. 1911, and 1st Dec. 1911).

11<sup>th</sup> Dec. A cold day with a light frost in the morning. The wind was from the north-east. The sun was out for a short time in the afternoon. The ground was covered with a thin layer of snow.

12<sup>th</sup> Dec. Another cold day with a light frost in the morning. The wind was from the north-east. The sun was out for a short time in the afternoon. The ground was covered with a thin layer of snow.

13<sup>th</sup> Dec. Very mild & damp for the day. The wind was from the south-west. The sun was out for a short time in the afternoon. The ground was covered with a thin layer of snow.

14<sup>th</sup> Dec. After a dry stormy night & a cold day. The wind was from the north-east. The sun was out for a short time in the afternoon. The ground was covered with a thin layer of snow.

15<sup>th</sup> Dec. After a dry stormy night & a cold day. The wind was from the north-east. The sun was out for a short time in the afternoon. The ground was covered with a thin layer of snow.

16<sup>th</sup> Dec. A cold day with a light frost in the morning. The wind was from the north-east. The sun was out for a short time in the afternoon. The ground was covered with a thin layer of snow.

17<sup>th</sup> Dec. Another cold day with a light frost in the morning. The wind was from the north-east. The sun was out for a short time in the afternoon. The ground was covered with a thin layer of snow.

14th Feb. 1900. Saturday. Fine weather.

15th Feb. 1900. Sunday. Fine weather.

15th Feb. Fine day. Sun out. Wind light. Temp. 40° F.

16th Feb. Fine day. Sun out. Wind light. Temp. 40° F.

16th Feb. After severe rain & squalls on 15th, the sun came out this morning. The wind was light & the temperature rose to 40° F. Many more trees down in the hills. Some of the trees off roofs & out. Some in garden & some in some bushes (e.g. cypripedium) fallen on Rhodo. cypripedium & some other plants near the American garage & some other plants.

17th Feb. Wind dropped & we had a calm day. Night followed by a calm & sunny day. Wind light. Temperature milder, with hill fog & rain. As "a weak warm front" approaches from NE. (Admiral's forecast).

The minute patches of snow on NE slope of Lough it about 2 ft. yesterday, & now gone. The snow on the hills is not so deep. The snow on the hills is not so deep. The snow on the hills is not so deep.

20th Feb. 62. Spent afternoon in garden. Saw a few birds. One of the birds was a sparrow. It was very tame. It came to the window and looked at me. I gave it a crumb of bread. It ate it. I saw a few other birds. They were all very tame. I saw a few more birds. They were all very tame. I saw a few more birds. They were all very tame.

21st Feb. 62. Spent afternoon in garden. Saw a few birds. One of the birds was a sparrow. It was very tame. It came to the window and looked at me. I gave it a crumb of bread. It ate it. I saw a few other birds. They were all very tame. I saw a few more birds. They were all very tame. I saw a few more birds. They were all very tame.

22nd Feb. 62. Spent afternoon in garden. Saw a few birds. One of the birds was a sparrow. It was very tame. It came to the window and looked at me. I gave it a crumb of bread. It ate it. I saw a few other birds. They were all very tame. I saw a few more birds. They were all very tame. I saw a few more birds. They were all very tame.

23rd Feb. 62. Spent afternoon in garden. Saw a few birds. One of the birds was a sparrow. It was very tame. It came to the window and looked at me. I gave it a crumb of bread. It ate it. I saw a few other birds. They were all very tame. I saw a few more birds. They were all very tame. I saw a few more birds. They were all very tame.

24th Feb. 62. Spent afternoon in garden. Saw a few birds. One of the birds was a sparrow. It was very tame. It came to the window and looked at me. I gave it a crumb of bread. It ate it. I saw a few other birds. They were all very tame. I saw a few more birds. They were all very tame. I saw a few more birds. They were all very tame.

25th Feb. 62. Spent afternoon in garden. Saw a few birds. One of the birds was a sparrow. It was very tame. It came to the window and looked at me. I gave it a crumb of bread. It ate it. I saw a few other birds. They were all very tame. I saw a few more birds. They were all very tame. I saw a few more birds. They were all very tame.

26th Feb. 62. Spent afternoon in garden. Saw a few birds. One of the birds was a sparrow. It was very tame. It came to the window and looked at me. I gave it a crumb of bread. It ate it. I saw a few other birds. They were all very tame. I saw a few more birds. They were all very tame. I saw a few more birds. They were all very tame.

27th Feb. 62. Spent afternoon in garden. Saw a few birds. One of the birds was a sparrow. It was very tame. It came to the window and looked at me. I gave it a crumb of bread. It ate it. I saw a few other birds. They were all very tame. I saw a few more birds. They were all very tame. I saw a few more birds. They were all very tame.

Insects taken at 2 (wood & ... N. of 1.) 2.0 till 5.00 p.m.

Myrmica ... seen

136 8th July 1962. Sunday

A very warm day.  
Left at 10.30 for the  
Schoharie by the  
way of the  
valley & for the  
one of the  
+ Englewood. Had a  
went on a  
not the  
off the  
have had

tea & started by a route nearly following the old  
Reached hotel shortly after 10.30 P.M.

After crossing the bridge on way out we found some large  
on which I took two and a half  
piles of sand & (first of packed out of the track)  
then some glass & took a number

a Sclerite  
one rock near the E. bank for  
at the bottom was a large  
and a small one  
) & a large one

20th Oct. 1941

21st Oct. Fine day, mild & dry, but a little wind.  
Cold day. In the morning I went to the  
river & saw a number of fish. In the afternoon  
I went to the river & saw a number of fish.

22nd Oct. A fine day, mild & dry. Spent day  
cleaning up & in afternoon had a long fire.

15th Nov. After a cold dry night with quite a frost, we had a cold but extremely sunny day! Sunday. I saw the first of greenhouse for the first time this autumn & 1/4 in. Both the water gate, near the end of Thana. All, frost & no thawing all day in the shade. At a little before 2 P.M. we went out for our usual walk, the shadow of St. Peter's tower just over our house & garden, but not there in the morning. (To be sent to Kodak box) only 100 yards from our gate.

19th Nov. After a very keen frost, a bright & sunny day with a light wind, no cloud. over our house & garden. (To be sent to Kodak box) in morning. In afternoon we collected leaf-mould. One each of ice cubes today.

27<sup>th</sup> Nov 1962

at 10.15 am I went to the  
field to collect. The weather was  
fine and the birds were  
very active. I collected a  
number of birds and  
insects. I also took some  
photos. I was very  
lucky to find a  
nest of great birds. I was  
very happy to find it.

28<sup>th</sup> Nov. A very nice day, all  
day. I went to the field to  
collect. I was very  
lucky to find a  
nest of great birds. I was  
very happy to find it. I  
also took some photos. I  
was very lucky to find a  
nest of great birds. I was  
very happy to find it.

29<sup>th</sup> Nov. A very nice day, all  
day. I went to the field to  
collect. I was very  
lucky to find a  
nest of great birds. I was  
very happy to find it. I  
also took some photos. I  
was very lucky to find a  
nest of great birds. I was  
very happy to find it.

30<sup>th</sup> Dec. A very nice day, all  
day. I went to the field to  
collect. I was very  
lucky to find a  
nest of great birds. I was  
very happy to find it. I  
also took some photos. I  
was very lucky to find a  
nest of great birds. I was  
very happy to find it.

166. 5th Dec. 1902. A fine day with  
a light breeze from the S. & a  
few clouds. I have been  
of the house & garden.

6th Dec. A fine day with  
S. S. breeze & a few clouds.  
I have been of the house & garden.

7th Dec. A fine day with  
a light breeze from the S. & a  
few clouds. I have been of the house & garden.

8th Dec. A fine day with  
a light breeze from the S. & a  
few clouds. I have been of the house & garden.

9th Dec. Sunday. A wild day, after a  
rain, hail & sleet squall, & a  
few clouds. I have been of the house & garden.

10th Dec. A nice day, sunny, with  
a light breeze from the S. & a  
few clouds. I have been of the house & garden.

11th Dec. A fine day with  
a light breeze from the S. & a  
few clouds. I have been of the house & garden.

12th Dec. A fine day with  
a light breeze from the S. & a  
few clouds. I have been of the house & garden.

13th Dec. A fine day with  
a light breeze from the S. & a  
few clouds. I have been of the house & garden.

14th Dec. A fine day with  
a light breeze from the S. & a  
few clouds. I have been of the house & garden.

15th Dec. A fine day with  
a light breeze from the S. & a  
few clouds. I have been of the house & garden.

16th Dec. A fine day with  
a light breeze from the S. & a  
few clouds. I have been of the house & garden.

20th Dec. After heavy rain from SW. during night & morning damp forenoon, but no actual rain fell. Wind from SE. in light skiff during afternoon. In forenoon I collected a bag of alf. Left by the foresters in plantation. & distributed Tuesday. Alf. would. In afternoon we collected more leaf mould.

29th Jan. 1904

Left at 10 AM for the hills. The day was very cold and the wind was from the north. We went to the top of the hill and saw a very fine view of the country. The hills were covered with snow and the water was frozen. We saw many tracks of animals and some small birds. We stayed at the top for about an hour and then came back.

30th Jan. 1904. A very cold day. The wind was from the north. We went to the top of the hill and saw a very fine view of the country. The hills were covered with snow and the water was frozen. We saw many tracks of animals and some small birds. We stayed at the top for about an hour and then came back.

31st Jan. 1904. A very cold day. The wind was from the north. We went to the top of the hill and saw a very fine view of the country. The hills were covered with snow and the water was frozen. We saw many tracks of animals and some small birds. We stayed at the top for about an hour and then came back.

Mr. Harding's 3 year old son  
 was very much alarmed  
 at the noise of the storm.  
 He collected some  
 leaves of *Salix* & *Populus* & *Prunella*  
 him last morning.

12th Feb. A very cold day  
 with a strong wind from the north.

13th Feb. A very cold day  
 with a strong wind from the north.  
 The snow was very deep  
 of his enormous force  
 being swept away by the wind.

14th Feb. The forecast rain  
 & night & rain continued  
 a little higher, but  
 Rain & wind gradually died down in late afternoon & evening.  
 By 9 P.M. quite calm & rain stopped. Wrote Nixon about Helium!

15th Feb. Same as yesterday, but wind & rain stopped in evening  
 a  $\pm$  dry night. The forecast that in England rain  
 NE wind from Continent this afternoon, as we expected, & some rain  
 in parts of Scotland & hills, districts in England. I had  
 short walk in plantation & collected etc. Wind up some more at 9 P.M.

16th Feb. A very cold day  
 with a strong wind from the north.

17th Feb. A very cold day  
 with a strong wind from the north.

18th Feb. A very cold day  
 with a strong wind from the north.

19th Feb. A very cold day  
 with a strong wind from the north.  
 Many branches of conifers  
 were seen broken down by wind & snow.  
 We had a very good day.  
 by

18<sup>th</sup>

18<sup>th</sup> Feb. Fine day, with light frost. We went out for a walk in the morning. The children were very happy. We saw many birds in the garden. The weather was very pleasant.

19<sup>th</sup> Feb. A fine day, with light frost. We went out for a walk in the morning. The children were very happy. We saw many birds in the garden. The weather was very pleasant.

20<sup>th</sup> Feb. After a very cold night, the day was fine. We had another walk in the morning. The children were very happy. We saw many birds in the garden. The weather was very pleasant.

21<sup>st</sup> Feb. Same as yesterday, after going to school. The day was fine. We had another walk in the morning. The children were very happy. We saw many birds in the garden. The weather was very pleasant.

Had a walk in afternoon. The day was fine. We had another walk in the morning. The children were very happy. We saw many birds in the garden. The weather was very pleasant.

22<sup>nd</sup> Feb. A cloudy all rainy day, with light cold & breeze, after a very hard frost. In afternoon we walked to Carragh and back across the moor, as on 18<sup>th</sup>. A fine view of the moor was seen. Taken on sitting room window & almost certainly changed from more still, for as came, all in a sudden, a fine view of the moor.

3

23<sup>rd</sup> Feb. A fine day, with light frost. We went out for a walk in the morning. The children were very happy. We saw many birds in the garden. The weather was very pleasant.

24<sup>th</sup> Feb. A fine day, with light frost. We went out for a walk in the morning. The children were very happy. We saw many birds in the garden. The weather was very pleasant.

25<sup>th</sup> Feb. A fine day, with light frost. We went out for a walk in the morning. The children were very happy. We saw many birds in the garden. The weather was very pleasant.

26<sup>th</sup> Feb. A fine day, with light frost. We went out for a walk in the morning. The children were very happy. We saw many birds in the garden. The weather was very pleasant.

27<sup>th</sup> Feb. A fine day, with light frost. We went out for a walk in the morning. The children were very happy. We saw many birds in the garden. The weather was very pleasant.

28<sup>th</sup> Feb. A fine day, with light frost. We went out for a walk in the morning. The children were very happy. We saw many birds in the garden. The weather was very pleasant.

1st March. A cold day with a strong N.E. wind. The sun was out for a short time in the afternoon. The temperature was 32° F. at 10 AM and 34° F. at 4 PM. The wind was strong and cold.

9th March. A cold day with a strong N.E. wind. The sun was out for a short time in the afternoon. The temperature was 32° F. at 10 AM and 34° F. at 4 PM. The wind was strong and cold. I had passed by a glass of water falling and was to get a glass of water from B. SW. It was a very cold day and the temperature was between 32° F. and 34° F. at 10 AM and 34° F. at 4 PM. I went to comment on the Rugby game in Cardiff where I saw the Wales by 14 pts to 6 - the first time at Cardiff since 1922!

10th March Sunday. A mainly rainy day after a cold night. The wind was only light and cold. The sun was out for a short time in the afternoon. The temperature was 32° F. at 10 AM and 34° F. at 4 PM. The wind was strong and cold. I went to comment on the Rugby game in Cardiff where I saw the Wales by 14 pts to 6 - the first time at Cardiff since 1922!

11th March. A cold day with a strong N.E. wind. The sun was out for a short time in the afternoon. The temperature was 32° F. at 10 AM and 34° F. at 4 PM. The wind was strong and cold. I went to comment on the Rugby game in Cardiff where I saw the Wales by 14 pts to 6 - the first time at Cardiff since 1922!

12th March. A cold day with a strong N.E. wind. The sun was out for a short time in the afternoon. The temperature was 32° F. at 10 AM and 34° F. at 4 PM. The wind was strong and cold. I went to comment on the Rugby game in Cardiff where I saw the Wales by 14 pts to 6 - the first time at Cardiff since 1922!

13th March. A cold day with a strong N.E. wind. The sun was out for a short time in the afternoon. The temperature was 32° F. at 10 AM and 34° F. at 4 PM. The wind was strong and cold. I went to comment on the Rugby game in Cardiff where I saw the Wales by 14 pts to 6 - the first time at Cardiff since 1922!

1881 12/1

10th March. A very fine day, with a light breeze from the west. The temperature was 50° at 10 AM, 60° at 2 PM, and 55° at 8 PM. The sky was clear and blue. The wind was light and pleasant. The sun was shining brightly. The clouds were few and far between. The weather was just what was needed for a day like this.

11th March. A very fine day, with a light breeze from the west. The temperature was 50° at 10 AM, 60° at 2 PM, and 55° at 8 PM. The sky was clear and blue. The wind was light and pleasant. The sun was shining brightly. The clouds were few and far between. The weather was just what was needed for a day like this.

12th March. A very fine day, with a light breeze from the west. The temperature was 50° at 10 AM, 60° at 2 PM, and 55° at 8 PM. The sky was clear and blue. The wind was light and pleasant. The sun was shining brightly. The clouds were few and far between. The weather was just what was needed for a day like this.

16th March. After very heavy rain during the night, the sun came out in the morning and has been shining brightly since. The temperature was 50° at 10 AM, 60° at 2 PM, and 55° at 8 PM. The sky was clear and blue. The wind was light and pleasant. The sun was shining brightly. The clouds were few and far between. The weather was just what was needed for a day like this.

17th March. A very fine day, with a light breeze from the west. The temperature was 50° at 10 AM, 60° at 2 PM, and 55° at 8 PM. The sky was clear and blue. The wind was light and pleasant. The sun was shining brightly. The clouds were few and far between. The weather was just what was needed for a day like this.

18th March. A very fine day, with a light breeze from the west. The temperature was 50° at 10 AM, 60° at 2 PM, and 55° at 8 PM. The sky was clear and blue. The wind was light and pleasant. The sun was shining brightly. The clouds were few and far between. The weather was just what was needed for a day like this.

19th March. A very fine day, with a light breeze from the west. The temperature was 50° at 10 AM, 60° at 2 PM, and 55° at 8 PM. The sky was clear and blue. The wind was light and pleasant. The sun was shining brightly. The clouds were few and far between. The weather was just what was needed for a day like this.

of the pond plot planted with *Yucca*. Under poor conditions, which complicate my planting, for the reasons above, a record is not available.

by R. Brown. Two Goldfinches seen. w. from house at 1.30 P.M.  
have seen them for several years!!

*Singnicola grandiflora*, *Varicaria fruticosa*, & *S. glabra*.  
 gave Mr. Dickson (or Dixon?) a clump of *Chionodoxa* & a part  
 of *Lavender* & in their place planted the *Magnolia* recently  
 given me by Mr. Harding & the ♀ *Skimmia* cuttings I got from him, many last  
 autumn, respectively. Also planted out 2 cuttings of *Ver. hulkiana* from greenhouse

16.5.63, cont. Got final photos. As our first "Kodachrome II" film back after processing, it was a disappointment. However I took about 100 photos of the birds in good, but not sun, light at an expense of 125<sup>00</sup> for the first 10 hours. Then taken at speed during Mr. Ealdness' hour of darkness above the bank near Spinkswae stream but as Mr. E. said he had been hearing them regularly about 10 minutes before a fortnight this was not important.

17th May 1963. A day of rain, with some sun in the afternoon. The rain was not very heavy, but it was enough to make the ground very wet. The sun came out for a short time in the afternoon, but it was not very bright. The wind was light and variable.

In the afternoon, I went to the garden and did some work. I planted some new plants and weeded the old ones. The plants are growing well, but they are a bit small. I also went to the bank and did some work there.

18th May. After a night of rain, the day was very dry. The sun was out for most of the day, and the wind was light. I went to the garden in the morning and did some work. I planted some new plants and weeded the old ones. The plants are growing well, but they are a bit small. I also went to the bank and did some work there. In the afternoon, I went to the garden and did some work. I planted some new plants and weeded the old ones. The plants are growing well, but they are a bit small. I also went to the bank and did some work there.

19th May Sunday. After a dry night, we had a very dry day with light wind (drizzle, increasing to rain at 2.45) but little sun. A light shower passed over at 4.15.

Spent most of day weeding, painting, and doing other work. I also went to the bank and did some work there. In the afternoon, I went to the garden and did some work. I planted some new plants and weeded the old ones. The plants are growing well, but they are a bit small. I also went to the bank and did some work there.

20th May. Very dry day. The sun was out for most of the day, and the wind was light. I went to the garden in the morning and did some work. I planted some new plants and weeded the old ones. The plants are growing well, but they are a bit small. I also went to the bank and did some work there.

In the afternoon, I went to the garden and did some work. I planted some new plants and weeded the old ones. The plants are growing well, but they are a bit small. I also went to the bank and did some work there.

21st May. A day of rain, with some sun in the afternoon. The rain was not very heavy, but it was enough to make the ground very wet. The sun came out for a short time in the afternoon, but it was not very bright. The wind was light and variable.

3<sup>rd</sup> June 1881. A perfect day, after a heavy dew & following light rain after midnight. The sun shone brightly from 10 till 5 and 20. A light wind from the S.W. at 10.

Spent forenoon cleaning ditch at G. Wood's. In afternoon I went to the Tennell's & saw some new plants. After tea I went to the garden & saw some more plants.

4<sup>th</sup> June 1881. A perfect day, after a heavy dew & following light rain after midnight. The sun shone brightly from 10 till 5 and 20. A light wind from the S.W. at 10. In afternoon I went to the garden & saw some more plants.

5<sup>th</sup> June. Sunday. A perfect day, after a heavy dew & following light rain after midnight. The sun shone brightly from 10 till 5 and 20. A light wind from the S.W. at 10.

In afternoon we walked to the corner of the garden at Brimshill, & Tullymore, where we saw some more plants.

On way home I swept here & there, and took the following insects:—

Brimshill, Newcastle, Co. Down, 4.5 P.M.

- Sawfly 1 =
- Hemiteles 2 or 3
- Pimpla of various
- Tryphon 1

2<sup>nd</sup> June 1881. A perfect day, after a heavy dew & following light rain after midnight. The sun shone brightly from 10 till 5 and 20. A light wind from the S.W. at 10.

In afternoon I went to the garden & saw some more plants.

- Tryphon 1
- Hemiteles 2 or 3
- Pimpla of various
- Tryphon 1

- Tryphon 1
- Hemiteles 2 or 3
- Pimpla of various
- Tryphon 1

In afternoon I went to the garden & saw some more plants.

3<sup>rd</sup> June. Last night the sun went down very early & at blood-red as on the previous day, so I suspected a change & this morning we had some light rain & much hill-fog & the sun shone dimly all day. But from 11 A.M. we had another very hot sunny day with a light E. breeze. Some clouds at sunset & a yellow sun! George & family spent the day with us. Whit Monday.

220 8th June 1962. A very hot day with a strong S.W. wind. In the afternoon I did odd jobs around the house.

9th June. Sunday. In the morning I went to the garden and did some work. In the afternoon I went to the bank and did some more work.

10th June. A very hot day with a strong S.W. wind. In the afternoon I went to the garden and did some work. In the evening I went to the bank and did some more work. On entering the bank I walked into the grassy round S side of the F. drive, where I found a lot of old wood and some old stone. I collected there and in beech plantation. On return home I filled nether No. 1. On return from the bank I filled nether No. 2. Common insect. numerous before lunch I went to the bank and collected during the period.

27<sup>th</sup> June. A poor miser-able & cold day with  
forenoon a fresh N.W. wind & in afternoon a  
steady drip with falling wind. Still dripping at 10 P.M.  
but now calm. Received letter from Mr. V. G. Bennett  
whom I had once met in west corner of St. James  
& showed him Veronica fruticosa. He wrote asking  
about Cystopteris montana, a form he seems interested in.  
Replied fully & also ref. to Sax. irregularis on the B.C.

1st July. 1882.  
The first day of the season.  
The weather was very fine.  
The sun was shining brightly.  
The wind was light and fresh.

2nd July. 1882.  
The second day of the season.  
The weather was very fine.  
The sun was shining brightly.  
The wind was light and fresh.

3rd July. 1882.  
The third day of the season.  
The weather was very fine.  
The sun was shining brightly.  
The wind was light and fresh.  
In forenoon I went to the garden.  
I dug up some potatoes.  
I found them very good.  
I also dug up some turnips.  
I found them very good.  
I also dug up some carrots.  
I found them very good.

4th July. 1882.  
The fourth day of the season.  
The weather was very fine.  
The sun was shining brightly.  
The wind was light and fresh.  
In forenoon I went to the garden.  
I dug up some potatoes.  
I found them very good.  
I also dug up some turnips.  
I found them very good.  
I also dug up some carrots.  
I found them very good.

5th July. 1882.  
The fifth day of the season.  
The weather was very fine.  
The sun was shining brightly.  
The wind was light and fresh.  
In forenoon I went to the garden.  
I dug up some potatoes.  
I found them very good.  
I also dug up some turnips.  
I found them very good.  
I also dug up some carrots.  
I found them very good.

6th July. 1882.  
The sixth day of the season.  
The weather was very fine.  
The sun was shining brightly.  
The wind was light and fresh.  
In forenoon I went to the garden.  
I dug up some potatoes.  
I found them very good.  
I also dug up some turnips.  
I found them very good.  
I also dug up some carrots.  
I found them very good.

7th July. 1882.  
The seventh day of the season.  
The weather was very fine.  
The sun was shining brightly.  
The wind was light and fresh.

8th July. 1882.  
The eighth day of the season.  
The weather was very fine.  
The sun was shining brightly.  
The wind was light and fresh.

9th July. 1882.  
The ninth day of the season.  
The weather was very fine.  
The sun was shining brightly.  
The wind was light and fresh.

10th July. 1882.  
The tenth day of the season.  
The weather was very fine.  
The sun was shining brightly.  
The wind was light and fresh.

11th July. 1882.  
The eleventh day of the season.  
The weather was very fine.  
The sun was shining brightly.  
The wind was light and fresh.  
In forenoon I went to the garden.  
I dug up some potatoes.  
I found them very good.  
I also dug up some turnips.  
I found them very good.  
I also dug up some carrots.  
I found them very good.

23rd 10th July '62.

A fine day after a rain. Received plants of *Hypericum* (from the same source) from the same source. I have also received some from the same source. I have also received some from the same source. I have also received some from the same source.

in a very stagnant ditch - some of it in a ditch which was full of water & had a very strong smell. I have also received some from the same source. I have also received some from the same source. I have also received some from the same source. I have also received some from the same source.

Took 3 photos in garden in forenoon at 1/60 sec. in week sun: of *Geranium pratense*, *Salix repens* & *Phlox*.

These were very dense but not good! A little under exposed. A.S. Aug. 1962

11th July 1962. A fine day after a rain. Received plants of *Hypericum* (from the same source) from the same source. I have also received some from the same source. I have also received some from the same source. I have also received some from the same source.

BEN LAWERS HOTEL  
LAWERS  
BY ABERFELDY  
PERTHSHIRE

Let  
Mr Skelton  
July 25/1963

June 24<sup>th</sup> 1963

Dear Mr Skelton,  
Thank you for  
your letter. I was very happy  
& (we all were) to know that  
you were thinking about coming  
over again this year. I shall  
be so glad to see you and Mr  
from July 19<sup>th</sup> to Aug. 8<sup>th</sup>.  
We had a letter from Mr Patrick,  
unfortunately I cannot take  
until July 22<sup>nd</sup>. A friend  
as Mr Skelton has reserved  
my rooms from July 13<sup>th</sup> to July  
however if I write Mr  
Patrick, I shall try to find  
accommodation at Morenish or  
near for the 3 nights July 19<sup>th</sup>  
to July 22<sup>nd</sup>. I shall write him today.

Jan. 24<sup>th</sup> 1963.

Dear Mr. Stelfox,

Thank you for

your letter. I was very happy indeed (we all were) to know that you were thinking about coming to Lawers again this year. I shall reserve no 9 for you and Mrs. Stelfox from July 19<sup>th</sup> to Aug. 8<sup>th</sup>.

I have had a letter from Mr. Garrick, but unfortunately I cannot take them until July 22<sup>nd</sup>. A friend of yours a Mr. Skillen has reserved all my rooms from July 13<sup>th</sup> to July 22<sup>nd</sup>, however if I speak Mr. Garrick, I shall try to find accommodation at Morenish or Feanor for the 3 nights July 19<sup>th</sup> to July 22<sup>nd</sup>. I shall write him today.

I am so glad that you and Mr. Stelfox have kept well, and that the winter has not been too severe with you.

We are very fortunate here - we have had little snow but quite hard frost. Alister was just mentioning this morning that his outwintered cattle were looking very well indeed!

We all send our good wishes to you and Mr. Stelfox, and it will be with great pleasure that we look forward to having you with us in July, so while there take great care of yourselves.

Yours very sincerely,  
J. Robertson.

26<sup>th</sup> July. Fine day. To the river to collect  
to collect in the river - some  
of the plants are  
where we collect  
This is a very good place  
I passed some plants on NW slope. These  
glass full of fine specimens. I collected  
Sedum villousum, etc.  
some. A very fine specimen.

27<sup>th</sup> July. Another fine day. To the river to collect  
Roger & Stephen Ward ~~came~~ up the quarry road to 1750 ft.  
& we walked up the valley to the slope of the quarry to 2200 ft.  
We first went to my old station for *Kobresia* & found it still  
frequent with narrow simple flower spike, some having a long  
narrow bract subtended & some no bract at all. See specimen  
on opp. page

18th Aug. Sunday. A very nice day with a  
slight shower in the morning.  
Went to the garden & did some work.  
Flowers in garden, especially roses, (see p. 12.)  
& got plants & slips of flowers, etc. to put in  
post Mr. George's letter. See p. 12.

19th Aug. After getting up in the morning I  
found the rain. After the rain I went to the  
market of the 19th. I found that the rain had  
before the rain. I found that the rain had  
the same result, & the rain was the same.

20th Aug. Another day of very heavy shower. From  
11 AM. onwards, but managed to get the rubbish which  
had been drying in the sun, & get some from  
outside, burnt. Also did some digging & weeding.  
By second post got news that one of my vicar's seeds  
had been drawn for \$25.

21st Aug. A very nice mainly sunny & dry day with fresh  
NW wind dying down to calm in evening. Spent day trying  
to get rubbish burnt, cut back lawn, & dug short row

22nd Aug. A very nice day with a slight shower in the morning.  
Went to the garden & did some work.  
Flowers in garden, especially roses, (see p. 12.)  
& got plants & slips of flowers, etc. to put in  
post Mr. George's letter. See p. 12.

23rd Aug. After getting up in the morning I  
found the rain. After the rain I went to the  
market of the 23rd. I found that the rain had  
before the rain. I found that the rain had  
the same result, & the rain was the same.

24th Aug. After the rain I went to the  
market of the 24th. I found that the rain had  
before the rain. I found that the rain had  
the same result, & the rain was the same.

25th Aug. After the rain I went to the  
market of the 25th. I found that the rain had  
before the rain. I found that the rain had  
the same result, & the rain was the same.

26th Aug. After the rain I went to the  
market of the 26th. I found that the rain had  
before the rain. I found that the rain had  
the same result, & the rain was the same.

27th Aug. After the rain I went to the  
market of the 27th. I found that the rain had  
before the rain. I found that the rain had  
the same result, & the rain was the same.

28th Aug. After the rain I went to the  
market of the 28th. I found that the rain had  
before the rain. I found that the rain had  
the same result, & the rain was the same.

29th Aug. After the rain I went to the  
market of the 29th. I found that the rain had  
before the rain. I found that the rain had  
the same result, & the rain was the same.

30th Aug. After the rain I went to the  
market of the 30th. I found that the rain had  
before the rain. I found that the rain had  
the same result, & the rain was the same.

List of seeds from Norway, received from Mr. Leath.

1. Aconitum napellus
2. Androsace
3. Arctostaphylos alpinus ; beroni
4. Astragalus (alpinus or lapponicus ?) ; up on 12.7.62.
5. Compositae ; many many up on 12.9.62.
6. Compositae
7. Cornus suecica ; beroni
8. May Lily
9. Mulgedium alpinum
10. Ten Senecio from Odo Bot. Garden.

Took several photos of plants in back garden.

270  
10<sup>th</sup> Sept 1913.

A very nice calm sunny day, but with a few very heavy showers - almost a deluge at times.  
Spent day getting refuse burnt, pruning & cutting plants.  
Put newspaper mulch on the potatoes & covered up the potatoes.  
Anderson's garden, it seems to be a very good one.

11<sup>th</sup> Sept. After a heavy shower (and frost) in early part of the night, it became sunny later, but we had another very wet day, with some rain at times, but mostly sunny. After rain became clear & warm, but with a few showers at times.  
Spent day in garden & got virtually all potatoes up & in a well as much of the garden refuse as I could. Top of the potatoes & got them up & in a well as much of the garden refuse as I could.

12<sup>th</sup> Sept. Another fine & sunny day, with a few showers, so that I was able to get both lawns cut in early afternoon.  
In forenoon I got a lot of seed of *Briza linearis* from Norway (sent me, Mrs. & Mr. Scott, of Edinburgh) in pot in green house. After seeds sown on 2<sup>nd</sup> Sept. those of *Astragalus* & *Compositae* No. 5 up to day, & moved from under glass to prevent seedling, becoming ranky & fear of damping off. Almost every seed of the *Compositae* must have germinated, I think. In afternoon I had a bonfire & got all left over rubbish burnt.

13<sup>th</sup> Sept. Very grass in wuggy in forenoon & went to see Mrs. Livers in afternoon. A lovely fine day after a light water mist on the hills in early forenoon.

14<sup>th</sup> Sept.

A very fine day, with a few showers, but mostly sunny. Spent day in garden & got virtually all potatoes up & in a well as much of the garden refuse as I could. Top of the potatoes & got them up & in a well as much of the garden refuse as I could.

15<sup>th</sup> Sept. A very fine day, with a few showers, but mostly sunny. Spent day in garden & got virtually all potatoes up & in a well as much of the garden refuse as I could. Top of the potatoes & got them up & in a well as much of the garden refuse as I could.

16<sup>th</sup> Sept. A very fine day, with a few showers, but mostly sunny. Spent day in garden & got virtually all potatoes up & in a well as much of the garden refuse as I could. Top of the potatoes & got them up & in a well as much of the garden refuse as I could.

17<sup>th</sup> Sept. A very fine day, with a few showers, but mostly sunny. Spent day in garden & got virtually all potatoes up & in a well as much of the garden refuse as I could. Top of the potatoes & got them up & in a well as much of the garden refuse as I could.

18<sup>th</sup> Sept. After much rain in early part of the night, a very dull but dry day with light N. to E. wind. In the latter part of day, & other birds, have become a menace to plants, by the numbers in opposite Dickson's garden. I spent the day clearing up the bank of it opposite Brown's Henderson's garden. To make available a new bathing place & well put wire over the present place, but did not get this done today.

272

19th Sept.

A dark & gloomy day with a heavy rain at intervals. In the forenoon we left the house for a walk in the garden.

But when we were nearly at the end of the garden, a heavy shower of rain fell, and we were obliged to return. 20th Sept. After a very early start, we went to the office. The post was very good. The recent rain has done a great deal of good. I cut off a few more of the plants & placed them in the water. I tried to prevent the plants from getting too dry, but they have been so long in the water that they are now very much decayed. I have now only a few plants left, and I am afraid that the rest of the plants will be lost. I shall have to start again in the autumn.

In afternoon D. G. E. Anderson of Zool Dept., Queen's University, Belfast, came to see me & brought with him of the small *Boeckhiopsis helvica*, which had been sent to the Dept. by a lady living in 'Glogher, Co. Tyrone, who had asked how to get rid of them, as they had been "invaded" by them. Dr. Henderson, who had taken them into a *Succinea*, promised to go over the place & write an account of what he saw for me. That *Boeckhiopsis* could ever become a pest in a house would have seemed incredible, had it not happened.

21st Sept.

A very fine day with a light breeze from the west. In the forenoon we went to the office. The post was very good. The recent rain has done a great deal of good. I cut off a few more of the plants & placed them in the water. I tried to prevent the plants from getting too dry, but they have been so long in the water that they are now very much decayed. I have now only a few plants left, and I am afraid that the rest of the plants will be lost. I shall have to start again in the autumn.

22nd Sept. 19th Sept. A very fine day with a light breeze from the west. In the forenoon we went to the office. The post was very good. The recent rain has done a great deal of good. I cut off a few more of the plants & placed them in the water. I tried to prevent the plants from getting too dry, but they have been so long in the water that they are now very much decayed. I have now only a few plants left, and I am afraid that the rest of the plants will be lost. I shall have to start again in the autumn.

23rd Sept. A very fine day with a light breeze from the west. In the forenoon we went to the office. The post was very good. The recent rain has done a great deal of good. I cut off a few more of the plants & placed them in the water. I tried to prevent the plants from getting too dry, but they have been so long in the water that they are now very much decayed. I have now only a few plants left, and I am afraid that the rest of the plants will be lost. I shall have to start again in the autumn.

24th Sept. After very heavy rain from the early hours, with strong S.E. wind, we had a fine midday & early afternoon, but not colder than late & after a heavy shower at 7 PM, a strong cold SW wind came up. Pruned *Cydonias* & *Fic. Thunbergii* in front garden & did some weeding in back garden. Fed some snails.

27<sup>th</sup> Sept. After gale from W. all night, but morning dry, the gale continued all forenoon, which was big & strong, but died down considerably. Late except for squally showers, passed away, but rain in "blizzys" in forenoon & hard path by the burn in afternoon.

28<sup>th</sup> Sept. After a dry & calm night, we had a misty morning with some very light misty drizzle after breakfast; we had a nice mild & calm day & though rain threatened all afternoon none fell before dark. Night began to fall about tea time & by 9 PM wind from SW had become gusty with light Scotch mist.

29<sup>th</sup> Sept. Sunday. Strong easterly W. wind all day, with frequent light drizzle blowing in the wind, mild with sunny intervals; wind veering NW in evening & falling. Had walk in forenoon to Linding; Leap & home via upper road in plantations; alone!

2<sup>nd</sup> Oct. A very nice day, but a little hazy, light N. breeze, after  
a dry night. The Eucalyptus show, which was a very good one. I think  
blamed up side of path once here & opposite fence divided by Mrs. McCallum's  
& Dickson's garden, both in forenoon & afternoon.

276.

4th October 1963.

At 11.30 am I went to the garden to see how the plants were getting on. I found that the Begonia *sempervirens* (the original plant, see entry for May) is now about 18 in. high - both the latter in flower, like the original. I brought it to the house for a time, but had been in the ground. W. of the *sempervirens* I had included the small flowered *sempervirens* given me by Mr. Fitzgerald of Gorse (which I subsequently brought into house), *Matthiola sinuata* seedlings & *Gratiola officinalis*. But among the Vegetables the most prominent, all but one, have been a 9 flower, mounted yesterday.

5th Oct. After a stormy night with showers, then very clear moonlight, we had a cloudy cold forenoon & early morning, with some rain at 9 AM. & then an increasingly fine afternoon with much sun & falling wind. Wind W., later NW, & calm by 9 PM. Spent forenoon digging & cleaning the plot W. of the *sempervirens*, where vegetable manure was the main. *Linum boreale* with two spikes of flowers open. The first spike having had the buds nipped off by (?) Sparrows: the second would have borne 3 flowers but one bud also bitten off. In late afternoon I moved Skiller's *Primula pubescens* from S. side of wee burn to N. side & some yards further W. - opposite NE corner of the wuzzy - as it had got too big.

6th

6th Oct. A very fine day, with a strong S. wind, but not too hot. I went to the garden at 11.30 am. The *sempervirens* is now about 20 in. high. I found that the *sempervirens* given me by Mr. Fitzgerald of Gorse (which I subsequently brought into house) is now about 18 in. high. I brought it to the house for a time, but had been in the ground. W. of the *sempervirens* I had included the small flowered *sempervirens* given me by Mr. Fitzgerald of Gorse (which I subsequently brought into house), *Matthiola sinuata* seedlings & *Gratiola officinalis*. But among the Vegetables the most prominent, all but one, have been a 9 flower, mounted yesterday.

5th Oct. A very fine day, with a strong S. wind, but not too hot. I went to the garden at 11.30 am. The *sempervirens* is now about 20 in. high. I found that the *sempervirens* given me by Mr. Fitzgerald of Gorse (which I subsequently brought into house) is now about 18 in. high. I brought it to the house for a time, but had been in the ground. W. of the *sempervirens* I had included the small flowered *sempervirens* given me by Mr. Fitzgerald of Gorse (which I subsequently brought into house), *Matthiola sinuata* seedlings & *Gratiola officinalis*. But among the Vegetables the most prominent, all but one, have been a 9 flower, mounted yesterday.

282. 19th Oct. 1962.

After rain in night, a fine day. I went out to see the new road, & to see the new bridge over the river. In the afternoon we had frequent rain, but it was not so much as in the morning. Arranged with Mr. Gold to go to see some plants in the garden at 10.30. Nothing doing. Garden & no rain in the day. Fine day.

20th Oct. A fine day, sunny day, but with strong SW. wind early in the day. A fine day, but not a light wind during the middle of the day. A day but in the evening a small rain.

In the morning I left home at 10.30. I walked to the farm. The day was a fine day, sunny day, but with strong SW. wind early in the day. A fine day, but not a light wind during the middle of the day. A day but in the evening a small rain.

Plenty of "Swallows", probably all House Martins, seen during the day. A few yards W of the two big trees at highest point of the road SW of the house, I saw a large plant of *Erodium cicutarium* (date of 19.10.1962, p. 282). This must be at about 100 ft alt. seen in the garden. *Erodium cicutarium* by the road at the cottage. Full flower. A new plant of *Erodium cicutarium* by the road near same place bearing one flower. *Erodium cicutarium* (plant) seen on roadside just below the fork in road E. of the cottage.

21st Oct. A fine day, sunny day, but with strong SW. wind early in the day. A fine day, but not a light wind during the middle of the day. A day but in the evening a small rain.

22nd Oct. A fine day, sunny day, but with strong SW. wind early in the day. A fine day, but not a light wind during the middle of the day. A day but in the evening a small rain.

23rd Oct. A fine day, sunny day, but with strong SW. wind early in the day. A fine day, but not a light wind during the middle of the day. A day but in the evening a small rain.

24th Oct. A fine day, sunny day, but with strong SW. wind early in the day. A fine day, but not a light wind during the middle of the day. A day but in the evening a small rain.

25th Oct. A fine day, sunny day, but with strong SW. wind early in the day. A fine day, but not a light wind during the middle of the day. A day but in the evening a small rain.

26th Oct. A fine day, sunny day, but with strong SW. wind early in the day. A fine day, but not a light wind during the middle of the day. A day but in the evening a small rain.

27th Oct. A fine day, sunny day, but with strong SW. wind early in the day. A fine day, but not a light wind during the middle of the day. A day but in the evening a small rain.

28th Oct. A fine day, sunny day, but with strong SW. wind early in the day. A fine day, but not a light wind during the middle of the day. A day but in the evening a small rain.

29th Oct. A fine day, sunny day, but with strong SW. wind early in the day. A fine day, but not a light wind during the middle of the day. A day but in the evening a small rain.

27th 24th Oct 1963.

A very nice mild day, with a light breeze from the SW. I went to the garden, and planted a number of plants in the back garden. I also went to the garden, and planted a number of plants in the back garden.

In the afternoon I went to the garden, and planted a number of plants in the back garden. I also went to the garden, and planted a number of plants in the back garden.

*Kalmia glauca*, *Ericea carnea*, *Ericea carnea*, *Ericea carnea*.

*Ericea carnea*, *Ericea carnea*, *Ericea carnea*.

Several *Ericea carnea* plants were seen in the garden. I also went to the garden, and planted a number of plants in the back garden.

Saw definite Swallow's nest in back garden in fence corner.

25th Oct. A very nice calm day, after very heavy dew during the night: mild, but not as warm as yesterday. Saw *Hirundo* & *Ericea carnea* in garden. Finished the planting of the back garden, and then dug the *Ericea carnea* between it, Daisy's cold frame & the upper path.

26th Oct. A dry day with fresh SE wind & thick smoke haze, with only a few blinks of sun, after a similar night. Sprayed a large area of front lawn with a mixture (2 gal. bucketful) of water, lawn, & water selection weed killer to try to reduce moss & buttercup &c. Then cleared stones & weeds off path along Anderson's hedge in back garden, which I had heard some days ago. Saw no *Ericea carnea* or *Hirundo*, but there not looked for!

27th

27th Oct. A very nice mild day, with a light breeze from the SW. I went to the garden, and planted a number of plants in the back garden. I also went to the garden, and planted a number of plants in the back garden.

In the afternoon I went to the garden, and planted a number of plants in the back garden. I also went to the garden, and planted a number of plants in the back garden.

*Kalmia glauca*, *Ericea carnea*, *Ericea carnea*, *Ericea carnea*.

Saw definite Swallow's nest in back garden in fence corner.

28th Oct. A dry day with fresh SE wind & thick smoke haze, with only a few blinks of sun, after a similar night. Sprayed a large area of front lawn with a mixture (2 gal. bucketful) of water, lawn, & water selection weed killer to try to reduce moss & buttercup &c. Then cleared stones & weeds off path along Anderson's hedge in back garden, which I had heard some days ago. Saw no *Ericea carnea* or *Hirundo*, but there not looked for!

29th Oct. A dry day with fresh SE wind & thick smoke haze, with only a few blinks of sun, after a similar night. Sprayed a large area of front lawn with a mixture (2 gal. bucketful) of water, lawn, & water selection weed killer to try to reduce moss & buttercup &c. Then cleared stones & weeds off path along Anderson's hedge in back garden, which I had heard some days ago. Saw no *Ericea carnea* or *Hirundo*, but there not looked for!

30th Oct. A dry day with fresh SE wind & thick smoke haze, with only a few blinks of sun, after a similar night. Sprayed a large area of front lawn with a mixture (2 gal. bucketful) of water, lawn, & water selection weed killer to try to reduce moss & buttercup &c. Then cleared stones & weeds off path along Anderson's hedge in back garden, which I had heard some days ago. Saw no *Ericea carnea* or *Hirundo*, but there not looked for!

In evening Miss Galt Scotland came, also Miss Dinnon, bringing with her transparencies taken on her 3 month trip to Uganda, showing vegetation, flowers, big game & views around Lake Albert, & Victoria, R. Nile, rift valley, escarpments, etc. Many of these were very fine & of great artistic merit & gave us a fair idea of the nature of the country. The three Misses Murray came to see the show, also!

286.

31st Oct. 1962.

Similar to yesterday, but with a slight change in the weather. Wind about 2 P.M. No frost. The afternoon (11.11).

In forenoon I cut up the garden path to the house.

A cold rain of the morning, but not much rain. A couple

of years ago, but the rain was not so heavy. A fine

drizzle & foggy. For along time the rain was not so

Heavy drizzle from 2 P.M. till bed time, but not a breath of wind.

1st Nov 1962. A dry, dull, day, with NE breeze very strong!

Blue sky to NE all day, but was obscured by the hills for over the

hill & only seen for a few minutes about noon. Mild.

Spent day moving the new into the main plot the area of hill. Still

have been for some years just E. of the raspberries & above division.

had become coated with *Polytrichum commune*, & other plants, as

well as sheets of *Sedum ruber* of all things!

2nd Nov. After some rain during night, & cloudy, mild, damp, with

forenoon: about noon much bluish, it looked as if we were going to have

a nice afternoon, but a sudden change about 2 P.M. & night again &

slight drizzle for an hour: a fine afternoon, with blue sky out to sea:

wind NE. varying from very light to moderate. In forenoon I dug the area

E. of the raspberries, where I lifted the bulbs yesterday. Raked up stones

after lunch. George's family arrived at 3 P.M. & after refreshment we

all went to Toward Lodge to collect pine cones. They left for

home at 7.45. Wasps (*V. vulgaris*) still flying from nest in the

wuzzes, but no sign of Bumble Bees or Hirundines since 25th Oct

Grey Wagtail seen yesterday on front lawn.

31st Oct. 1962. In day.

Similar to yesterday, but with a slight change in the weather. Wind about 2 P.M. No frost. The afternoon (11.11).

In forenoon I cut up the garden path to the house.

A cold rain of the morning, but not much rain. A couple

of years ago, but the rain was not so heavy. A fine

drizzle & foggy. For along time the rain was not so

Heavy drizzle from 2 P.M. till bed time, but not a breath of wind.

1st Nov 1962. A dry, dull, day, with NE breeze very strong!

Blue sky to NE all day, but was obscured by the hills for over the

hill & only seen for a few minutes about noon. Mild.

Spent day moving the new into the main plot the area of hill. Still

have been for some years just E. of the raspberries & above division.

had become coated with *Polytrichum commune*, & other plants, as

well as sheets of *Sedum ruber* of all things!

2nd Nov. After some rain during night, & cloudy, mild, damp, with

forenoon: about noon much bluish, it looked as if we were going to have

a nice afternoon, but a sudden change about 2 P.M. & night again &

slight drizzle for an hour: a fine afternoon, with blue sky out to sea:

wind NE. varying from very light to moderate. In forenoon I dug the area

E. of the raspberries, where I lifted the bulbs yesterday. Raked up stones

after lunch. George's family arrived at 3 P.M. & after refreshment we

all went to Toward Lodge to collect pine cones. They left for

home at 7.45. Wasps (*V. vulgaris*) still flying from nest in the

wuzzes, but no sign of Bumble Bees or Hirundines since 25th Oct

Grey Wagtail seen yesterday on front lawn.

19th Oct. Last flower on large plant opened on 1st Jan. 1964.!

288. 7th Nov. 1963.

After a very calm night, a dry day, but at night with a S.W. wind round to W. & so no longer dry smoke. Light & squally but increasing & very cold in afternoon. Sprayed another area of front lawn with the oil & water mixture. In afternoon I cleared up a piece along path N. of the Sanitation house.

8th Nov. A dry day, after a dry night, with fresh S.W. breeze, mainly sunny in forenoon, & a light drizzle in afternoon, with some squalls about, but we only had an odd drop or two in afternoon. Spent rest of day attending to the garden & got much accumulated garden rubbish burnt.

9th Nov. After a dry & calm night we had a almost perfect day with no wind, but a squally & light drizzle in afternoon. Later it became cold & dry in evening, but glass commenced to fall before bedtime.

10th Nov. Sunday. Rain & gale from E commenced before dawn & we had terrific rain till tea time - a real "southerly"!!! Wind very strong in gusts & continued till bedtime but no rain after about 5 P.M. Mild. The snowdrops opened its second flower today.

11th Nov. Not much colder than yesterday & after a wet during night the glass fell all forenoon to day to about 28.5 & heavy rain with severe squalls from SE occurred at frequent intervals all day. The second flower on large cactus open today & the third will be open tomorrow on the smaller. Mounted some plants from sand dunes & will post two sonnets, a violet & a *Luzula* to Miss Scarnell (Nat. Mus., Dublin) tomorrow for her opinion.

12th Nov. A dry day, after a dry night, with fresh S.W. breeze, mainly sunny in forenoon, & a light drizzle in afternoon, with some squalls about, but we only had an odd drop or two in afternoon. Spent rest of day attending to the garden & got much accumulated garden rubbish burnt.

12th Nov. A dry day, after a dry night, with fresh S.W. breeze, mainly sunny in forenoon, & a light drizzle in afternoon, with some squalls about, but we only had an odd drop or two in afternoon. Spent rest of day attending to the garden & got much accumulated garden rubbish burnt. We saw 3 plants of *Utricularia lusitana* by the road above the shepherd's cottage, but no flowers.

14th Nov. A dry day, after a dry night, with fresh S.W. breeze, mainly sunny in forenoon, & a light drizzle in afternoon, with some squalls about, but we only had an odd drop or two in afternoon. Spent rest of day attending to the garden & got much accumulated garden rubbish burnt. More snow on St. George, down to about 2,500 ft.

290.  
15th Nov. 1962.

As yet no frost. Some light rain, but not behind. Still some frost, but not as much as the summit of the mountain. Some frost on the ground, but not as much as the summit of the mountain. Some frost on the ground, but not as much as the summit of the mountain.

Sorted at 10.30 AM. Light rain, of course, but not behind. Still some frost, but not as much as the summit of the mountain. Some frost on the ground, but not as much as the summit of the mountain. Some frost on the ground, but not as much as the summit of the mountain.

16th Nov. After a hard frost (1/4 inch ice on the ground & rail tracks) a dry day, becoming milder, with a dry wind.

In forenoon I cleared up more bank of use in front garden & took away 3 full barrow loads. In afternoon I collected some pine leaf scale to put in the museum.

17th Nov. Sunday. Dull & threatening after a dry night but no frost. Glass falling, heavy rain started shortly after noon, with SE. wind rising to gale force all afternoon. I had an hour's walk in the plantation before rain. Very heavy rain all afternoon! Glass suddenly turned up about 5 P.M. rain stopped, wind veered SW & fell & clear out by 6.30 P.M.

18th Nov. A calm, mild but damp day, with some rain, but not as much as the summit of the mountain. Some frost on the ground, but not as much as the summit of the mountain. Some frost on the ground, but not as much as the summit of the mountain.

19th Nov. A calm, mild but damp day, with some rain, but not as much as the summit of the mountain. Some frost on the ground, but not as much as the summit of the mountain. Some frost on the ground, but not as much as the summit of the mountain.

20th Nov. A calm, mild but damp day, with some rain, but not as much as the summit of the mountain. Some frost on the ground, but not as much as the summit of the mountain. Some frost on the ground, but not as much as the summit of the mountain.

21st Nov. A dry & cloudy day, but some rain in evening. Spent day putting in plastic pipe as an overflow from the plastic pond & recent heavy rain had raised level of water to where it flows over the border along the burn path.

292

23<sup>rd</sup> Nov. 1963.

After further rain on the night & morning, with a little drizzle about noon, but clearing to a bright day. In the afternoon I did a little weeding by the border along the new lawn in front garden.

24<sup>th</sup> Nov. Sunday. After a very early start, we had a frost on the morning, but clearing to a bright day. In the afternoon I had a little work in the kitchen, but the overflow pipe of the sink in the kitchen had to be changed. I had a little work in the kitchen, but the overflow pipe of the sink in the kitchen had to be changed.

25<sup>th</sup> Nov. After a dry night rain commenced about 9 AM. It was a mild & continued all day, except for about an hour around dinner time. In the afternoon I collected cones under the old pine trees below & N. of Donald Lodge.

26<sup>th</sup> Nov. A fine day with a sunny morning becoming cloudy in early afternoon, with drizzle from 4 P.M. till about six. Wind NW, light. In forenoon I continued clearing up the new lawn in front garden near the garage & in afternoon I brought home leaf mould from the wood - enough to fill the wheelbarrow.

27<sup>th</sup> Nov. After a stormy, but dewy night, garden very wet, but we had another entirely sunny forenoon with light southerly wind, during which I spent an hour weeding the front drive. In afternoon I repeated yesterday's programme & brought home the same load (3 bags full) of leaf mould. In evening the wind rose & grew full & little & the sky was more overcast. Sent Len Williams a cheque as we didn't present.

293

28<sup>th</sup> Nov. After a dry night rain commenced about 9 AM. It was a mild & continued all day, except for about an hour around dinner time. In the afternoon I collected cones under the old pine trees below & N. of Donald Lodge.

29<sup>th</sup> Nov. After a dry night rain commenced about 9 AM. It was a mild & continued all day, except for about an hour around dinner time. In the afternoon I collected cones under the old pine trees below & N. of Donald Lodge.

30<sup>th</sup> Nov. After a dry night rain commenced about 9 AM. It was a mild & continued all day, except for about an hour around dinner time. In the afternoon I collected cones under the old pine trees below & N. of Donald Lodge.

1<sup>st</sup> December 1963. After some rain & strong SE wind during night & early morning, the sky cleared about 10 AM. & after a short & severe squall with sleet & hail just before noon, we had a nice dry afternoon, during which I had an hour's work in the plantation. Sunday.

294

2nd Dec 1963.

dusky

Later, standing in the rain, I saw (S) of the house.

I cut up sticks & cut up some of the ...

Afternoon I had ...

3<sup>rd</sup> Dec. Same as yesterday, but a more ... light, but still ... In forenoon I was ... thin weather, and an ... above the ... of the ... In afternoon I ... sticks, as usual.

4<sup>th</sup> Dec. Same as yesterday. In forenoon I ... & kept it up all day & got ... I also transplanted Daisy's ... from the plot above the raspberries to edge (SW) of A plot above the plastic pool.

5<sup>th</sup> Dec. Same as yesterday. In forenoon I dug the plot where Daisy's chrysanthemum had been for several years, & set out a space to W of same where she had Quince & shallots the last summer.

In afternoon I brought 3 bags of leaf-mould from under house W. of the waterfall.

6<sup>th</sup> Dec. Same as yesterday, but E wind colder. In forenoon at bank, etc., till 11.30 AM. Then dug plot in garden where Daisy had ... spread leaf-mould & did some weeding, etc., in flower garden.

7<sup>th</sup> Dec. Again same!

8<sup>th</sup> Dec. Same, but calmer & milder. Wrote letters in forenoon & had walk in afternoon. Sunday.

15th Dec 1962

To celebrate 80th birthday of ... day, in forenoon ... in the ... (garden) & have ... about 1 1/2 ...

Except some ... 16th Dec. Monday. Another absolutely calm, sunny day, after a similar night ... or St. Donard & snow in various spots, of England ... Spent forenoon sawing bits off ... 7 or 8 ... & the pond at the ... In afternoon I had ... & collected "sticks" for the fire.

17th Dec. Similar to yesterday, entirely dull, calm day. In forenoon I sprayed ... tips of some moss sprayed last month ... beneath was apparently green & unharmed. In afternoon I had ... & collected sticks & chips.

18th Dec. After a hard frost, a clear & sunny forenoon, many but snow clouds appeared about 12.45 ... for rest of the day, with light ...

In forenoon collected leaf-mould ... 19th Dec. After a hard frost & calm clear night, a clear sunny day with no trace. Collected leaf-mould ...

... at night ...

... in the ...

... No frost during night, but no further ...

... In afternoon I had ...

24th Dec. After a mild, but dry night, a dull day, but dull, day. Wind fresh S-SE, but not very cold. A fresh blough arrived in evening, with violent gust from SE & rain ... still dropping as we went to bed. Had walk in afternoon with George & family, & all fire returned with bags of Austrian Pine cones from ... below the ruins of Donard Lodge.

26<sup>th</sup> Dec. Another all morning spent in the day, the wind, while most of our birds in good condition, but a few of the last two days. Spent forenoon clearing the house, of the new turn opposite back and on the other side of the house. Also spread 20. specimens collected in 20<sup>th</sup>. most of that collected & spread on in receipt of the specimens of 23<sup>rd</sup> & 24<sup>th</sup>, as it was dry & light.

27<sup>th</sup> Dec. Cloudy, very mild, with southerly wind, drizzle - all day, no sun. In afternoon I had salt in hand, & collected ticks, in forenoon I mounted plants.

28<sup>th</sup> Dec. After some drizzle before breakfast, we had a dry day with strong S-SE wind & clouds coming off St. Bernard's nose, but not too much to get through, though mainly blue sky above as usual. Burn up sticks, cleared much out of upper reservoir. In afternoon I did walk in woods & collected sticks in afternoon, also met G. B. D. Griffiths & looked out Dacnuid No. 4 (D. vittipennis sp. nova) to send for his opinion. The Hamamelis mollis in back garden almost in full flower, but when the flowers opened as usual I think some must have been open a day or two. Erica carnea now mostly well in flower & Scilla peruviana "Humboldt's bell" still with many flowers, also the "May" cherries!

200

1964

1st January 1964.

After a dry & cold night, a light rain fell, & a sunny day, till 4.15 p.m. when it became overcast & drizzle. The wind was S.W. & fresh, which was a relief after the almost glassy calm of the previous day. In the afternoon I had a walk in the garden.

In the morning I put the plants where potatoes were in the garden, & which had become covered with grass. The evening frost was in the compost. In the afternoon I had a walk in the garden, & collected some plants. Last night I saw a few bats flying about.

2nd Jan. Similar to yesterday, strong wind in the morning. In the afternoon I had a walk in the garden.

3rd Jan. Similar, but less wind. In the morning I had a walk in the garden, but drizzle off & on in the afternoon. In the forenoon I was at the bank & collected some plants. In the afternoon I had to stay to collect some plants. I saw a Shag in the garden at 4.15 p.m.

4th Jan. Damp & drizzly early, then real rain, & fine in afternoon. No wind. Mounted plants & later had walk to waterfalls back.

5th Jan. No rain at night or all day. Sunny. Wind NE-E moderate, falling calm in afternoon. Bright, but cloud round St. Donard and on off down hills. Had walk before dinner (1 1/4 hours): up The Green Hill & back, path to Rhododendron quarry; then up path to top bridge, then W. round back of Donard hill, & home. Saw four plants of *Pinguicula lusitanica* in roadside ditch near the Shepherd's cottage but no flowers.

6th Jan. Similar to yesterday, strong wind in the morning. In the afternoon I had a walk in the garden. I saw a Shag in the garden at 4.15 p.m.

7th Jan. Similar to yesterday, strong wind in the morning. In the afternoon I had a walk in the garden. I saw a Shag in the garden at 4.15 p.m.

8th Jan. Similar to yesterday, strong wind in the morning. In the afternoon I had a walk in the garden. I saw a Shag in the garden at 4.15 p.m.

11th Jan 1962

Investigate the life of the ...  
... garden. ...  
... In afternoon I ...  
... of leaf mould ...

12th Jan. Sunday. ...

M. J. ... (geologist) came ...  
... went round garden ...

Winter ...

13th Jan. After a very ...

... at about 11.30 ...

... of the house ...

I continued to work ...

... later went over ...

house & found ...

... spraying. There ...

... & read in afternoon. ...

14th Jan. A dry cold day with E. wind (fresh to strong at times). ...

... at night, which covered St. ...

... of Thomas Mt., ...

3 bags of leaf mould ...

15th Jan. A very cold, but dry, day, with ...

... & much smoke haze. In forenoon I ...

11.30 to 12.45. In afternoon I collected sticks & cones in the plantation. A yellow crocus, under Magnolia in back lawn 3 inches high & ready to open.

4<sup>th</sup> Feb. After a windy, but dry, night, we had a mainly sunny day, with strong W. wind & before noon very slight drizzle & blowing in the wind (I observed clouds & drizzle on Ireland). The afternoon was dry & windy, but in evening wind moderated & some drizzle occurred. In forenoon I started Soc. & ph. col. of D. mydalis Griffiths & in afternoon I cut up & collected sticks with P. mutation.

This evening Mr. White of Branga, rang on phone & arranged to come & see the position where the green house is to go, evidently intending to do the job of erecting it.

4<sup>th</sup> Year. After frost in early part of night & has cleared & bright, & frost in  
valleys early morning, but wind in hills & strong light breeze from S.W.  
till 2 P.M., then steady in force of breeze. In forenoon I had another  
barrow load of moss off front lawn & then cut some more bits of one of  
the fallen willows in the boggy. In afternoon I had a chance to try to get  
some of the old moss, & found Mr. Odum's Blue Scilla in flower &  
already damaged by pecking Sparrows. Found *subsp. n.* at foot of  
James Quire cordon apple "Heavenly Blue" & *ham. galathea* with many flowers.

310

7th Feb. A beautiful day, with a light breeze from the west. I spent the morning in the garden, and in the afternoon I went to the bank of the river, and saw a number of ducks, and a few geese. I also saw a number of rabbits, and a few foxes. I was very much interested in the scene, and I was very much surprised to find that the ducks were very tame, and that the foxes were very shy.

8th February. Another beautiful day, with a light breeze from the west. I spent the morning in the garden, and in the afternoon I went to the bank of the river, and saw a number of ducks, and a few geese. I also saw a number of rabbits, and a few foxes. I was very much interested in the scene, and I was very much surprised to find that the ducks were very tame, and that the foxes were very shy. I also saw a number of rabbits, and a few foxes. I was very much interested in the scene, and I was very much surprised to find that the ducks were very tame, and that the foxes were very shy.

9th Feb. A dry day, with light variable wind, after some frost at night. Mainly cloudy, with some fine sunny spots in the afternoon. Sunday. In forenoon I walked past ruins of Donald Lodge and to King St. & then up through the wood, across the burn below Lindenberg, & along the dunes wall parallel to King St. till I got above the house, then of the old tramway from the quarry & so home. 11.30 AM. till 1.15 PM.

10th Feb. A dry day, with light variable wind, after some frost at night. Mainly cloudy, with some fine sunny spots in the afternoon. Sunday. In forenoon I walked past ruins of Donald Lodge and to King St. & then up through the wood, across the burn below Lindenberg, & along the dunes wall parallel to King St. till I got above the house, then of the old tramway from the quarry & so home. 11.30 AM. till 1.15 PM.

13th Feb. After a dry & sunny night, it was a very cloudy day, with some rain in the evening. I spent most of the forenoon in the garden, and in the afternoon I went to the bank of the river, and saw a number of ducks, and a few geese. I also saw a number of rabbits, and a few foxes. I was very much interested in the scene, and I was very much surprised to find that the ducks were very tame, and that the foxes were very shy.

314 21<sup>st</sup> Feb 1964.

After a night of rain, the day was bright & sunny. The wind was light & the sea was calm. I went for a walk in the garden & saw many flowers beginning to grow. The weather was very pleasant.

22<sup>nd</sup> Feb. After a wet night, the day was bright & sunny. The wind was light & the sea was calm. I went for a walk in the garden & saw many flowers beginning to grow. The weather was very pleasant.

23<sup>rd</sup> Feb. After another wet night & rain, the day was bright & sunny. The wind was light & the sea was calm. I went for a walk in the garden & saw many flowers beginning to grow. The weather was very pleasant.

Only at post in forenoon, but in afternoon I met Mr. Caldwell at 2.30 & we had walk in the plantation. till 5 PM. with much blue sky overhead, but sea mist coming in from sea over headland, as often happens. Later we had sea mist also.

24<sup>th</sup> Feb. A very dull day, with the usual E wind - heavy rain in early forenoon, after rain dry with hill fog, less wind & no sun. Then in afternoon, the rain easing in evening to near gale & clearing S. collected sticks in afternoon. After consulting Mr. Caldwell in forenoon I ordered various gadget, from Haines Ltd. for the new greenhouse - such as lectistakes, thermostat, sun blinds, polystyrene shading, tray, etc. from Scotland.

25<sup>th</sup> Feb. A very dull day, with the usual E wind - heavy rain in early forenoon, after rain dry with hill fog, less wind & no sun. 316

*Leucostoma* from L. or *Leuc.* p.

Ground frost forecast in some places. Took photo of *Penstemon salicifolius*.  
29th Feb. Another day of rain & dry, after a long night of rain, ground  
frost, but no snow. A few flowers not destroyed, but will  
keep on show E. wind most of the day. Spent a few hours writing  
letters including an order (£6.00) to Woodman of some plants and  
repellents, a strain lamp and (3x400) 1/2" of 1000 W. for 2 days

Then went for an hour's walk in woods. A few berries.  
 Afternoon I cut off dead hem. 50 ft. in diam, plants I clipped  
 Erica, 50 lbs. 2 PM - then went in 50 ft. in.

1st. March 1964. Sunday. No frost during night! A similar day to yesterday & virtually all sunny, with some slight hill fogs & some cold E. breeze, as an anticyclone approaches from S. Scandinavia & Germany. Spent day in garden, weeding, &c. A. yesterday many House Bees at the Malonia flower, but no Bumble seen, though I thought I heard one yesterday. Ornamental & willow catkins melting nicely.

2000-01-01

31<sup>st</sup> 4<sup>th</sup> March 1964.

Wind damp NE light, anticyclone, cloudy, but not too bad.

but depressing & unpleasant. Windy & cold.

I pulled, in the pot, some more of the same.

Was pulled a lot of the same & some of the same.

moving them in the same way as the same.

In afternoon - I pulled some more of the same.

5<sup>th</sup> March. A very nice day, 11<sup>th</sup> of the month, very sunny.

cold afternoon with wind. The wind is from the N.W.

Wind is from the N.W. & is very cold.

ready & so on. The wind is from the N.W.

more ready.

6<sup>th</sup> March. 11<sup>th</sup> of the month, very sunny.

as snow also. 2<sup>nd</sup> of the month, very sunny.

& cold damp, light. The wind is from the N.W.

now in full flower & very lovely, but made a scene as it is so of the first time.

The *Saxifraga cinerea* in Anderson's garden now in flower & very lovely, but made a scene as it is so of the first time.

in waxy almost so, but the first not nearly in flower.

7<sup>th</sup> March After quite a hard frost with ice in the air & pond had a

very nice day with a cold sun. The hill and valley at dawn.

In spite of rain the *Rhododendron* is rather damaged & some of the white

*Camellia* (now also in flower). Had a nap in the garden & some of the white

8<sup>th</sup> March. Sunday. A similar day after a frost at night.

In forenoon I walked to 3<sup>rd</sup> of the month, very sunny.

S. of Drinnahilly. Took one photo - took a lot of the same.

a room. Later took one at 3<sup>rd</sup> of the month, very sunny.

In afternoon did some weeding.

10<sup>th</sup> March. 11<sup>th</sup> of the month, very sunny.

14<sup>th</sup> March. 11<sup>th</sup> of the month, very sunny.

as snow also. 2<sup>nd</sup> of the month, very sunny.

12th March 1964.

Another day & dull day with cold SE wind. There was no heavy rain. Was promised in afternoon and was in the garden in the afternoon. A flower from a friend. That it was a very nice one.

Made two trips, afternoon & forenoon, to the garden. I completed a hanging up of some of the plants. I was in the car of garage and was in the garden. I was in the garden by the distance in front of the house. I was in the garden.

13th March. After rain at night, cold SE wind and off morning, but cold & very thick with fog. Some rain in the afternoon. Cold & foggy. In forenoon I went up to the garden and was in the garden. The winter is in the garden. In the afternoon I was in the garden. An urgent note for him to go to the garden. Which gave up the garden. I was in the garden. At the heating apparatus, I was in the garden. From Hume's Rd., which was sent off per British Road. From Byfleet, Surrey, on 2nd March.
